

PISTOL POSTS

These instructions will guide you through installing the Pistol Post kit in your Original Hangman® Triple Secure™ storage system or in your Original Hangman™ XL Triple Secure™ storage system. Follow the simple instructions below.

Note that the Pistol Posts cannot be installed on your Original Hangman™ Triple Secure™ XXL storage system.

	<p>The Pistol Post Package includes everything you see in the picture: 2 threaded Bolt POST; 4 flat WASHERs; 2 Lock WASHERs; 2 rubber SPACERS; 2 yellow barrel PROTECTORS. Two spare barrel PROTECTORS are also included.</p>
	<ol style="list-style-type: none"> 1. Insert a threaded Bolt POST through one of the holes in the bottom of UNIT. 2. Install 2 flat WASHERS on the Bolt POST <u>inside</u> the UNIT. 3. Next, install 1 lock WASHER. 4. Thread the NUT by hand down to the LOCK WASHER and tighten with a wrench (a deep well 7/16 socket works best). <p>Repeat the above steps for the other Pistol Post, if needed.</p>

To install the yellow barrel PROTECTORS on the Bolt POST:

1. Remove the yellow barrel protectors from the wire clips.
2. Push each PROTECTOR onto a Bolt POST by sliding the PROTECTOR over the Bolt POST, pushing down and turning to the right (like you are threading a nut onto the Bolt).
3. Keep pushing down and turning until the PROTECTOR is fully on the Bolt POST.
4. Repeat these steps for the other PROTECTOR.
5. Lastly, place the rubber SPACERS over the Pistol POST as shown in the picture.

You're done!

WARNING:

- DO NOT FORCE THE GUN BARREL ONTO THE BARREL PROTECTOR.
- DO NOT STORE A LOADED WEAPON ON THE PISTOL POST.
- ALWAYS CHECK TO MAKE SURE THE BARREL PROTECTOR REMAINS ON THE BOLT AND IS NOT STUCK IN THE END OF THE GUN BARREL.
